PROFESSIONAL SUMMARY

A dedicated Software Engineer with a focus on FullStack development, specializing in Java, Spring Boot, React.js, and REST APIs. Experienced in building scalable applications with secure authentication and MongoDB integration. Demonstrates strong analytical and problem-solving abilities within the SDLC framework, committed to contributing to positive team environments and organizational goals.

EDUCATION

Master of Computer Applications, Madan Mohan Malaviya University of Technology (MMMUT), Gorakhpur, Uttar Pradesh
May 2026 |
CGPA: 8.45

Bachelor of science, Chhatrapati Shahu Ji Maharaj University (CSJMU) Kanpur, Uttar Pradesh | CGPA: 7.04

SKILLS

- Languages:** Java , Javascript.
- Development:** Spring Boot, React.js REST APIs.
- Database:** MongoDB.
- Core Fundamentals:** Object-Oriented Programming (OOPS), Data Structures & Algorithms, SDLC.
- Tools:** Git, Postman, Maven.
- AWS (Theoretical):** EC2, S3, RDS, IAM, VPC.

EXPERIENCE

- Web developer Intern** July 2025- Aug 2025
Company Name *VaultofCodes*
- Engineered responsive Single Page Applications (SPAs) using React.js, ensuring cross-browser compatibility.
 - Implemented software development best practices to design user-centric portfolio websites.
- Full Stack Developer Intern** Sep 2015 - Dec 2025
Company Name *Naksh Jewels*
- Full Stack Development: Built dynamic blog and policy pages by integrating Strapi API rich-content with a responsive frontend UI.
 - API Integration: Engineered and optimized backend APIs to ensure seamless communication and high-performance data delivery.

- Authentication & Security: Implemented secure user authentication and managed dynamic data handling to improve site reliability.

Software Engineering

April 2025 – June 2025.

Company Name JPMorgan Chase & Co.

- Developed and integrated REST APIs and REST API Controllers to manage system communication.
- Implemented backend functionality and enrollment verification protocols.
- Completed a simulation focused on practical software engineering tasks and project setup.

PROJECTS

ChatApp.

<https://github.com/AyusHkaushaL1/CHAT-APP>

MERN stack based chat application using modern UI and Socket.io for Real-Time Communication between users.

Implemented ChatBot for helping user in language translation message reply, using Google Gemini API key.

Implemented JWT token based authentication for secure messaging.

Cloudnary for image storing and sharing on the chat.

Employees Management System.

<https://zesty-travesseiro-76c41b.netlify.app/>

Designed a system with role-based login for Admins and Employees to improve organizational workflow.

Enabled Admins to assign tasks and track employee status, directly mirroring HR performance management duties.

Tasks assignment to employees from it's Dashboard.

Employee dashboard for Accept, Delete and Update the task.

Movie App.

<https://lucent-jelly-97dff4.netlify.app/>

React application to browse latest movies with posters, rankings, and IMDb ratings.

Enabled real-time search and watch later list.

Used TMDB API for live movie data.

Job Portal.

<https://github.com/AyusHkaushaL1/JobPortalAssisted>

Built backend using Spring Boot, REST APIs, and MongoDB,

Implemented JWT-based authentication and role-based access control Developed APIs for job posting and applications.

EXTRA-CURRICULAR ACTIVITIES: Singing, Writing Poetries and Reading Books.

Certificates: React JS by Scalar - 2025, Software Engineering Simulation (JP Morgan) - 2025, Nestlé Mind Maze Participation - 2025.
